

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. DIVISION OF VITAL STATISTICS.

BIRTHS.

The state rate for births (exclusive of stillbirths) has increased from 20.8 per 1,000 to 21.9 per 1,000, which means an increase of 7,050 births. The total number of births for 1916 is 112,951.

Summit county, with a rate of 38.1 per 1,000, is the highest, and Lake county, with a rate of 14.1 per 1,000, is the lowest. Madison county, with an increase of 5.7 per 1,000 is the largest increase, and Noble county, with a decrease of 3.9 per 1,000, shows the greatest decrease in rate.

Akron, with a rate of 42.0 per 1,000, has the largest city rate, the lowest being Painesville, which is 11.2 per 1,000. The average city birth rate is 23.7 per 1,000, as compared with 22.12 per 1,000 for 1915. The general state birth rate is 21.9.

DEATHS.

The general death rate for the state for 1916 is 14.4 per 1,000, as compared with 12.98 per 1,000 for 1915. This increase is largely due to a great increase in deaths from preventable diseases, such as measles, whooping cough and influenza.

Comparative table of deaths from each of the 189 causes as classified by the International List of Causes of Death, is appended.

*From 1803 to 1850 the Secretary of State was elected by the General Assembly.

†The Democrat party of today claims lineal descent from the first Republican party, with President Jefferson as its founder. Authorities differ as to the date when the party dropped the name Republican and assumed that of Democrat, it being ascribed to various dates between 1805 and 1820.

‡Political parties were disorganized at the time of the election of John Q. Adams. He claimed to be a Republican, as Jefferson, but his doctrines were decidedly Federalistic. The opposition to his administration took the name of Democrat, and elected Jackson President in 1828.

DUTIES OF THE COURT.

Decisions of contested cases in the collection of customs duties have been in great confusion for several years. It has been exceedingly difficult for the law officers of the Government to obtain consistent interpretations of the various provisions of the tariff law as applied to specific articles. It is believed that by concentrating the responsibility for deciding such cases in a single judicial body much of the confusion that arises from these variations of interpretation will be removed. The new court will decide all contested cases without appeal, except on questions of constitutionality.
